## Objective

Energetic and skilled Angular developer with a strong educational background in computer applications. Seeking opportunities to leverage my expertise in Angular, along with my proficiency in MongoDB, Selenium, and DevOps, to contribute to innovative projects and drive organizational success.

## Experience

- Keryar IT Solution** December 2023 - Present  
Web Development  
Angular-based Web Application DevelopmentDuring my internship at Keryar IT Solution, I had the opportunity to work on a significant project involving the development of an Angular-based web application. Collaborating closely with senior developers, I played a pivotal role in building frontend components using Angular framework. Leveraging my knowledge of HTML, CSS, and Bootstrap, I contributed to creating responsive and visually appealing user interfaces. Additionally, I actively participated in integrating backend APIs and ensuring seamless communication between frontend and backend systems. Throughout the project, I gained hands-on experience with software version control using Git and the Visual Studio Code (VS Code) development environment, enhancing my proficiency in modern software development practices.

## Education

- CHARUSAT University** April 2024  
Master of Computer Applications (MCA)  
5
- Sardar Patel University** April 2022  
Bachelor of Commerce (B.Com)  
6

## Skills

- Angular Development: Proficient in building dynamic web applications using Angular framework.
- Database Management: Skilled in MongoDB for efficient data storage and retrieval.
- Test Automation: Experienced in Selenium with Python for automated testing of web applications.
- DevOps Fundamentals: Familiar with DevOps principles and practices for streamlined software development and deployment.
- Web Technologies: Strong grasp of HTML, CSS, and Bootstrap for responsive web design.

## Projects

- **Salon Management System**

Salon management system will help your business grow in today's highly challenging salon and spa industry.

It optimizes management and operations for spas and salons, providing actionable, real-time insight of your business.

Our management solution will facilitate improvements throughout your business and give you a clear advantage over the competition.

- **Bank Management System**

Created a robust system for efficient management of banking operations, enhancing customer service and satisfaction.

I contributed to creating a system that facilitated seamless transaction management, improved data security measures, and elevated overall operational effectiveness.
